By: Rep. Robert Dickey (140th)

Through the Agriculture & Consumer Affairs Committee

Final Bill Summary: House Bill 1150 eliminates definitions for "agricultural area," "changed conditions," and "urban sprawl" in order to prevent a nuisance lawsuit from being brought against a farming operation that has been active for more than two years. A private nuisance action cannot be brought against an agricultural facility or operation unless the plaintiff possesses the real property affected by the alleged nuisance. The start of a concentrated animal feeding operation (CAFO) shall constitute a separate and independent established date of operation, regardless of whether the CAFO is started on a pre-existing farming operation. The bill adds that the provisions of the subsection do not apply if a nuisance is caused by negligence or illegal operations.

HB 1175 Georgia Raw Dairy Act; enact

By: Rep. Clay Pirkle (155th)

Through the Agriculture & Consumer Affairs Committee

Final Bill Summary: House Bill 1175 provides for the standards related to the safety, transportation, and sale of raw milk in Georgia. The Department of Agriculture shall be responsible for the enforcement of this article and establishing any related rules and regulations, including rules related to the labeling of raw milk for human consumption, specifications for any glassware used for bottling, and the installation of recording thermometers on bulk farm tanks.

Any person who manufactures, stores, or sells raw milk for human consumption must be in possession of a permit from the department. Permits must be held before the beginning of an operation and are not transferable. All permits are valid for one year and are renewable upon submission of relevant forms. Any person operating under this article must provide the department with any requested data or statistics.

Prior to the issuance of a permit, samples of raw milk shall be collected and tested to ensure acceptable pathogenic results. Following the issuance of a permit, the department shall test raw milk for consumption as frequently as necessary to determine a product is not adulterated, misbranded, or otherwise not in compliance. At least four samples must be collected in a six-month period in at least four separate months. Samples must show the raw milk for human consumption conforms to the following standards: bacteria limits below 20,000 per mL; no positive results for drugs; somatic cell count below 500,000 per mL; coliform counts below 10 per mL; and any organisms of *Escherichia coli*. If the freezing point of milk is greater than -0.525 degrees Celsius, the raw milk is to be considered to contain water and is in violation of this article, the penalty for which is a two-day suspension for a violation of greater than 3%. Raw milk is to be considered adulterated if the presence of drugs, pesticides, herbicides, or other poisonous substances are found; if milk is adulterated, it should be disposed of outside of the human or animal food chain and a penalty shall be imposed. Further, if a drug residue test is positive, a recall shall be initiated. Samples shall be analyzed by a laboratory in compliance with the latest edition of Standard Methods for the Examination of Dairy Products (SMEDP) of the American Public Health Association and the latest edition of Official methods of Analysis (OMA) of the Association of Official Agricultural Chemists (AOAC) International.

HB 1175 requires all raw milk for human consumption to be bottled, packaged, and sealed in the same location the milk is produced. All vessels, including bottles, shall be labeled in accordance to requirements set by the

'Federal Food, Drug, and Cosmetic Act,' as amended by the 'Nutrition Labeling and Education Act of 1990' and any other relevant federal regulations. Bottles, containers, and packages containing approved raw milk for consumption shall also be marked with the following: "Grade A Raw" on the exterior; the identity of the farm in which the product was produced; the statement, "This is a raw milk product that is not pasteurized and may increase the risk of foodborne illness" in no smaller than 12-point font; and the common name of the hooved animal that produced the milk.

Raw milk for consumption shall be cooled to 10 degrees Celsius or less within four hours and to 7 degrees Celsius or less within two hours of the commencement of milking. Finished, processed, and packaged raw milk shall be kept at 7 degrees Celsius or less during storage and transportation.

Lactating animals that show evidence of milk with abnormalities or that have been treated with or consumed medicinal or radioactive agents must be milked last or using separate equipment and the extracted milk must be discarded. Milk from lactating animals that have consumed medicinal agents as prescribed by a veterinarian or that has been exposed to insecticides shall not be offered for sale. Milking equipment that has been exposed to an animal with milk abnormalities shall be sanitized before being used again to reduce the possibility of re-infection or cross infection. All animals producing raw milk for human consumption must be tested for brucellosis and tuberculosis every 12 months; animals shipped into Georgia for the purpose of milking shall be tested no more than 30 days before being brought into the state. If an animal tests positive, it shall be separated from the herd, retested, and, if necessary, disposed of according to guidelines published by the United States Department of Agriculture.

Each producer of raw milk for human consumption must develop and maintain procedures to notify regulatory officials, consumers, and conduct product recalls.

Any person that violates any of the following shall be found guilty of a misdemeanor: handling of raw milk in unclean or unsanitary places or manners; storage or preparation of any raw milk for human consumption in the same structure where hide or fur of any cow, horse, hog, or other livestock is kept; handling or shipment of raw milk in unclean or unsanitary vessels; exposure of raw milk to flies or another contaminated influence; possession of a branded or registered raw milk can or container for any purpose other than the handling, storage, or shipment of raw milk; the sale of raw milk that is not pure, fresh, and handled with clean equipment; the sale of raw milk from diseased or unhealthy animals or that came in contact with a person suffering from a contagious disease; the sale of raw milk that has been exposed to contaminant that would render the raw milk unsuitable for human consumption; or the sale of raw milk that does not meet the standards set by this article.

HB 1175 exempts any testing equipment used to determine whether a substance has been adulterated with a synthetic opioid from being considered a drug-related object.

HB 1443 Mobile food service establishments; operate in county of origin or other counties without an additional permit; provide

By: Rep. Houston Gaines (117th)

Through the Agriculture & Consumer Affairs Committee

Final Bill Summary: House Bill 1443 allows for a mobile food establishment that is permitted in one county to operate in other counties in the state. To do so, the establishment must both submit a copy of a permit from the county of origin to the outside county of operation as well as await the outside county's board of health to verify that the permit is in good standing with the Georgia Department of Public Health. The outside county may reject the establishment's permit if the permit is not in good standing with the county of origin. A mobile food service establishment must renew its permit annually in the county of origin and provide the renewed permit to any outside counties within which it operates.

Outside counties may conduct periodic and unannounced inspections on any mobile food service establishment with a permit from another county. If an establishment fails an inspection, the outside county may both notify the county of origin, or any other county within which the establishment is permitted, as well as levy a fine or terminate the permit. Any fees for inspections shall be paid by the next business day and failure to do so will result in termination of a permit in that county.

Banks & Banking Committee**Staff: Brock Perry****HB 891 Banking and finance; financial institutions; provide for numerous updates****By: Rep. Bruce Williamson (115th)*****Through the Banks & Banking Committee***

Final Bill Summary: House Bill 891 is the annual revision of Title 7 of the Code, relating to banking and finance, by the Georgia Department of Banking and Finance. Superfluous/redundant language is clarified and removed, terminology is updated, and outdated/unnecessary language is removed.

The bill eliminates the reporting requirement of permissible borrowings by department employees. It also increases the credit card limit of employees from \$10,000 to \$25,000, so long as the employee does not have direct examination authority over the entity and continues to report credit card debt.

The bill alters control language in the Code so if no person or entity controls 25% or more of a bank or holding company, the largest shareholder over 10% will be subject to change in control processes. The bill also eliminates consideration of convenience and needs in the event of a change of control or acquisition. It clarifies that change in control provisions also apply to financial institutions other than banks. Additionally, it allows an LLC, in addition to a corporation, to merge into a bank or trust company.

HB 891 revises representative office processes by providing that home state laws of a national/out-of-state bank apply to the location unless in conflict with state law. It adopts the federal law limitation prohibiting a loan production office from closing loans at the location. The language indicating an agent of a bank or holding company can open a representative office is struck. Notice is required prior to closing a representative office.

The bill requires the president of a new credit union to be named at the organizational meeting while eliminating the annual appointment requirement of a president by the board of directors. It removes the requirement for a credit union offering third-party payment services to get approval from the department. Credit union members are prohibited from voting by proxy, and credit union boards are permitted to meet less frequently than once during 10 months of the calendar year with the department's approval. Smaller asset credit unions (assets of \$15 million or less) are permitted to not secure a small signature loan if a car loan already exists, so long as the total combined liability is \$50,000 or less.

The bill modifies law related to bank investors so that a passive investor, an investor who does not exercise control and has less than a 25% ownership interest, does not have to be vetted and approved by the department. The department may disapprove of an executive officer that did not have to be vetted by the department through the control process.

HB 891 authorizes an installment lending licensee to make a loan of up to \$3,000. The bill additionally repeals the current provision requiring a 3% tax on interest provision collected by installment lenders and replaces it with a percentage fee based on the gross loan amount at the time of funding.

Decisions may be appealed to the State Board of Education, which shall make written findings of any violations. HB 1372 Georgia Utility Facility Protection Act; revise provisions and short title**By: Rep. Vance Smith (133rd)****Through the Energy, Utilities & Telecommunications Committee**

Final Bill Summary: House Bill 1372 revises the 'Georgia Utility Facility Protection Act' to enhance the processes for 'locate requests' of underground utility facilities or infrastructure and to require 9-1-1 to be contacted if an excavator damages a gas or hazardous liquid pipeline.

The bill states that all owners or operators that maintain underground facilities must participate as members of the Utilities Protection Center (UPC). An "underground facility" is defined as an underground fiber, conductor, pipe, or structure used to provide traffic control; traffic management; electric service; communications service; or carry gas, oil, sewage, wastewater, storm drainage, or other water or liquids. The bill requires all underground facilities, excluding sewer cleanouts and water meter boxes, to be located within the public right-of-way and in accordance to the specifications in the bill. Sewer cleanouts and water meter boxes that establish the exact location of an underground facility must be located within 10 feet of the public right-of-way to be considered a permanent marker of the related underground facility.

No person shall blast or excavate with mechanized equipment until the person has submitted a 'locate request' for underground facilities to the UPC. The 'locate request' must include a specific "effective date" when the requested blasting or excavating is expected to start, and the duration of time it is expected to take place. The 'locate request' must also include "appropriate notice", which is the expected effective date for the blasting or excavating to begin. The appropriate notice may not be less than two business days or more than eight business days.

Starting July 1, 2023, the Department of Transportation (DOT) shall participate in and cooperate with the UPC to receive 'locate requests' in DOT's right-of-ways. The DOT shall not participate in the funding of the UPC or its activities. HB 1372 is effective on September 1, 2022.

HB 1013 Mental Health Parity Act; enact

By: Rep. David Ralston (7th) Through the Health & Human Services Committee

Final Bill Summary: Part I: 'Georgia Mental Health Parity Act'

House Bill 1013 requires that health care insurance plans that provide coverage for mental health treatment or substance use disorders do so in accordance with the federal 'Mental Health Parity and Addiction Equity Act of 2008.' Health insurers must also provide an annual comparative analysis report to the insurance commissioner, which will be available on the Office of the Commissioner of Insurance and Safety Fire's (OCI) website.

Failure to submit timely reports can result in fines ranging from \$2,000 to \$5,000. The commissioner is to ensure compliance with mental health parity requirements among health insurers and establish a process for addressing complaints about mental health parity violations. Insurers that do not comply with mental health parity may face punitive action including monetary penalties, compliance plans, or reprocessing of claims. The commissioner appoints a mental health parity officer.

The bill revises the definition of "department" to reference OCI rather than the Department of Community Health (DCH) in the existing Act. Further, this bill creates a new definition for "generally accepted standards of mental health or substance use disorder care" and defines it as independent standards of care and clinical practice recognized by certain specialty health care providers, including psychiatry, psychology, clinical sociology, addiction medicine and counseling, and behavioral health treatment. Additionally, the definition specifies valid, evidence-based sources of accepted standards of mental health or substance use disorder care. The definitions of "medical necessity," "medically-necessary care," or "medically necessary and appropriate" are also revised to include behavioral health services that screen, prevent, diagnose, manage, or treat an illness.

HB 1013 requires that state health insurers providing coverage for mental health and substance use disorders do so to the same degree as the treatment for a physical illness and coverage extends to a spouse and dependent(s) covered under a plan. Health insurers must provide annual comparative analysis reports to the DCH commissioner, which will be available on the department's website. The DCH commissioner is to perform parity-compliance reviews of state health insurers on an annual basis as well as establish a process for addressing complaints about mental health parity violations.

The DCH and OCI commissioners are required to make reasonable efforts to provide culturally and linguistically sensitive materials to consumers through the complaint process. Health insurers are not allowed to prohibit same-day reimbursement for someone who sees separate mental health and primary care providers in the same day.

Care management organizations (CMOs) are required to maintain a minimum 85% medical loss ratio (MLR) or a higher minimum established in a contract between DCH and a CMO. If the minimum ratio is not met, the CMO must provide a remittance of the amount determined by DCH. The department will post on its website the aggregate MLR for all CMOs, the MLR for each CMO, and required remittances.

Part II: Workforce and System Development

The bill authorizes service cancelable educational loans for Georgia residents enrolled in educational training for primary care medicine, psychiatry, mental health, substance use, clinical nurse specialist in mental health, or other licensed clinicians or specialists. Loans are conditional on the student agreeing to practice as a professional within an approved geographical area of the state.

The Georgia Board of Health Care Workforce is required to create a Behavioral Health Care Workforce Data Base to collect and analyze surveys for behavioral health care professional applicants and licensees. Licensing boards will require these surveys to be completed by professionals upon licensure, and the surveys must include the professional's demographics, practice status, education and training, specialties, average hours worked per week, percent of practice engaged in direct care, retirement plan if retiring in the next five years, child and

adolescent specialized training, information on accepting new patients, and types of accepted insurance, including Medicaid and Medicare.

Part III: Assisted Outpatient Treatment

HB 1013 creates a three-year assisted outpatient treatment grant program to establish the efficacy of the assisted outpatient treatment model in Georgia.

The bill defines "assisted outpatient treatment" as involuntary outpatient care provided by a community service board or a private provider in collaboration with other community partners in order to: identify current residents who qualify as outpatients; establish procedures that lead to a petition being filed in the appropriate probate court when an individual is believed to be an outpatient; provide evidence-based treatment and case management under an individualized plan; safeguard the due process rights of those alleged to require and those civilly committed to involuntary outpatient care; establish communication between the court and providers; continually evaluate each care plan and respond to non-compliance; partner with law enforcement agencies to provide an alternative to the arrest, incarceration, and prosecution of individuals who may qualify as outpatients; and maintain a patient's connection to treatment services upon transition to voluntary outpatient care.

The Department of Behavioral Health and Developmental Disabilities (DBHDD) will establish a grant program for the implementation of assisted outpatient treatment and provide three years of funding, technical support, and oversight to five grantees. The grantees must be a collaboration between community service boards or private providers, probate courts or other courts with jurisdiction, and sheriffs' offices. The bill outlines the process for the application and award of the grants.

HB 1013 requires the DBHDD to contract with a third-party organization or consultant prior to awarding the grants in order to evaluate the program and its effectiveness. The grantees must provide the required information to the third-party organization or consultant, and the department must contractually require the third-party organization or consultant to produce a report and send it to the governor and the chairpersons of the respective House and Senate Health and Human Services committees by December 31, 2025.

Current statute states that when a law enforcement officer has probable cause to believe that an individual is mentally ill and requiring involuntary treatment, the officer is able to take that person to a physician or emergency receiving facility for an examination. HB 1013 states that the officer can transport a patient to a receiving facility if they have probable cause to believe the individual is mentally ill requiring involuntary treatment and have consulted with a physician who authorizes transportation for the purpose of evaluation. The officer is required to write a detailed report about the circumstances of the person's detainment, which will become a part of the patient's clinical record. These provisions also apply to those hospitalized for and arrested for penal offenses due to substance abuse disorder.

The governing county authority where the patient is found is required to arrange initial emergency transportation, and the transportation provider is prohibited from releasing the patient to any place other than the receiving facility. At the community mental health center's request, the court is required to order the sheriff to carry out subsequent transportation appropriate to the patient's condition. The patient can also be transported by family and friends to the health center's satisfaction. No female patient is allowed to be transported without another female present unless there is an emergency or a male family member accompanies them.

Part IV: Mental Health Courts and Corrections

Subject to appropriations, the Criminal Justice Coordinating Council (CJCC) will create a grant program to fund accountability courts serving the mental health and co-occurring substance use disorder population to implement trauma-informed treatment and designate an employee to issue technical assistance to the courts. The council will also create a grant program to fund emergency transportation cost for local governments depending on funds.

HB 1013 adds to the list of authorized expenditures of the County Drug Abuse Treatment and Education Fund to include drug abuse treatment and education programs relating to controlled substances, alcohol, and marijuana for adults and children. Additionally, the fund can be used by a mental health court division that serves those with co-occurring substance use disorders.

The bill expands the powers and duties of the Office of Health Strategy and Coordination (OHSC) to: partner with the Department of Corrections and Department of Juvenile Justice to evaluate mental health wraparound services to meet client needs in the state reentry plan; partner with the Department of Community Supervision to evaluate the ability to share mental health data between agencies in order to facilitate identifying and treating people under community supervision who receive community-based mental health services; oversee coordination of mental health policy and behavioral health services across state agencies; develop and

implement a solution to ensure appropriate health care services and supports; develop solutions to systemic barriers impeding delivery of behavioral health services; focus on goals to resolve issues related to behavioral health services; monitor and evaluate implementation of goals and recommendations to improve behavioral health access; establish common outcome measures to evaluate agencies in overseeing mental health services; and create a comprehensive formulary for behavioral health prescriptions under state health plans. Lastly, OHSC is to examine ways to increase certified peer specialists in rural and other underserved or unserved communities and conduct a survey or study on the emergency transport of individuals.

The state will fund at least five new co-responder programs, each of which will have a minimum of one team. Behavioral health co-responders are included in the entities trained at the Public Safety Training Center.

The Mental Health Courts and Corrections Subcommittee of the Georgia Behavioral Health Reform and Innovation Commission is authorized to submit recommendations to DBHDD regarding the development and future expansion of the program and continue exploring community supervision strategies. The subcommittee is tasked with continuing to explore community supervision strategies for individuals with mental illnesses. HB 1013 adds the following persons to the Behavioral Health Coordinating Council: the commissioner of the Department of Early Care and Learning; the commissioner of the Technical College System of Georgia; a behavioral-health expert employed by the University System of Georgia and designated by the chancellor of the university system; the Office of the Child Advocate; an expert on early-childhood mental health appointed by the governor; an expert on child and adolescent health appointed by the governor; and a pediatrician appointed by the governor.

Part V: Child and Adolescent Behavioral Health

DBHDD is to provide the following annual reports to OHSC: complaints made by individuals receiving behavioral health services; status of housing placements and needs; programs designed to serve disabled infants, children, and youth; and performance and fiscal status of each community service board.

HB 1013 clarifies that community service boards provide mental health, developmental disabilities, and addictive diseases services to both adults and children.

The bill adds a deadline of October 1, 2024, for the creation of a statewide system for sharing of data between various state agencies for the purposes of the care and protection of children.

The Multi-Agency Treatment for Children (MATCH) team is established within DBHDD and is composed of members from the following agencies: the Division of Family and Children Services (DFCS); the Department of Juvenile Justice; the Department of Early Care and Learning; the Department of Public Health; the Department of Community Health; the Department of Human Services; the Department of Education; the Office of the Child Advocate; and the Department of Corrections. The MATCH team facilitates cross-agency collaboration to explore resources and solutions for the treatment needs of children.

Part VI: Behavioral Health Reform and Innovation Commission

HB 1013 requires DCH to study and submit a report by December 31, 2022, for its insurance programs (Medicaid, PeachCare for Kids, and the State Health Benefit Plan) that compares reimbursement rates for mental health services to other states; reviews reimbursing providers of mental health care services; provides an accurate accounting of mental health fund distribution across state agencies; reviews medical necessity of denials for adolescent behavioral health services; and implements coordinated health care for foster youth with claims being immediately shared with DFCS.

The Behavioral Health Reform and Innovation Commission is authorized to collaborate with DBHDD to develop assisted outpatient treatment fidelity protocols and education for grantees; consult with DBHDD in the selection of a research consultant or entity; coordinate initiatives to assist local communities to keep those with serious mental illness out of detention facilities; convene with various health plans and providers to examine how to develop a mechanism to meet the behavioral health needs of youth and young adults in state custody; provide adoptive caregivers with necessary support; and establish an advisory committees to evaluate methods to create pathways of care and develop and recommend solutions for appropriate health care services.

The bill requires the Georgia Data Analytic Center Project's administrator to prepare an annual unified report of suspected mental health parity violations with data received from OCI and DCH.

The bill also requires DCH to provide Medicaid coverage for any medically necessary prescription prescribed to an adult by a licensed practitioner for the treatment of delusion and mood disorders, including schizophrenia and bipolar disorder, if certain criteria are met.

The Behavioral Health Reform and Innovation Commission is extended to June 30, 2025.

Final Bill Summary: House Bill 1 creates the 'Forming Open and Robust University Minds (FORUM) Act.' The institutions shall not prohibit expressive activities in those areas or designate any campus areas as a "free speech zone". Institutions may maintain and enforce restrictions for expression so long as the restrictions are narrowly tailored to serve a significant institutional interest and employ criteria that is clear, published, neutral, and provides ample alternative means for expression. Restrictions must also allow the community to assemble spontaneously and to distribute literature.

Individuals may engage in expressive activities that do not materially and substantially disrupt the functions of the institution. Disruptions do not include conduct protected by the First Amendment of the United States Constitution. The bill does not prevent an institution from prohibiting student-on-student harassment or unlawful activities.

Policies, regulations, and expectations of student expression on campus will be made public by the institution. The institutions will also develop materials, programs, and procedures regarding student expression for all individuals responsible for the education or discipline of students.

The State Board of the Technical College System of Georgia shall publish an annual report related to its actions on free expression. The report will be shared with the governor and General Assembly on July 1 of each year.

SB 333 removes language related to agents and agent's permits, updating how these apply to nonpublic postsecondary educational institutions. Institutions applying to operate postsecondary activities are required to have a financial assessment, and the director of the commission can impose or eliminate bond requirements based on that. The bonds must have a rating of at least a B+.

Under current law, postsecondary institutions, which were first authorized to operate in Georgia on or after July 1, 1990, were required to participate in the trust fund for five years, but under the provisions of this bill, the institution is required to participate for seven years. SB 333 eliminates the cap on the trust fund, removes bankruptcy of a participating institution as grounds for reimbursements from the trust fund, and prohibits one institution from using more than 10% of the total trust fund unless authorized by a two-thirds majority vote of the commission. SB 333 increases the balance of the trust fund from \$500,000 to at least \$10 million by July 1, 2040.

Final Bill Summary: House Bill 389 codifies existing case law to determine whether work classifies a person as an employee or an independent contractor. The bill provides an enforcement mechanism, which adds a civil penalty paid to the Department of Labor when an employer misclassifies its employees. The bill states that employment does not include services performed by or facilitated through a network company, so long as the network company has a written contract with the individual that expressly states that the network company shall not unilaterally prescribe specific dates, times, or a minimum number of hours that an individual is required to be logged onto the network company's application. To apply, the contract must not be terminated by the network company if a person does not: accept a specific delivery or transportation request; restrict an individual from performing transportation or delivery services through other network companies; and contractually restrict an individual from working in any other lawful occupation or business. - HB 409 Judicial Legal Defense Fund Commission; establish**
By: Rep. Stan Gunter (8th) Through the Judiciary Committee
Final Bill Summary: House Bill 409 establishes the Judicial Legal Defense Fund Commission to facilitate the provision of state-funded legal representation to justices of the Supreme Court, judges of the Court of Appeals, the Georgia State-wide Business Court, and superior courts when these judges are sued for actions taken pursuant to their official duties.

The commission shall be governed by five members appointed by the chief justice of the Supreme Court, the governor, the lieutenant governor, the speaker of the House, and the Council of Superior Court Judges of Georgia. The Council's appointment shall be a member of the judiciary. The appointments are subject to advice

and consent of the Senate. The bill provides for the terms, occurrence of vacancies, officers, and voting of the membership.

In the event that a suit is filed against a judge and the attorney general does not provide representation and the costs of litigation are not covered by an insurance policy maintained by the Department of Administrative Services, it shall be the purpose of the commission to evaluate requests for representation and determine if the suit seeks relief from actions taken pursuant to the judge's official duties. With the assistance of the State Bar of Georgia, the commission shall maintain a list of attorneys to provide representation to the judges subject to the governor's approval.

If the commission endorses a judge's request to receive representation funded by the Judicial Legal Defense Fund, which is also established in the bill and funded by the Governor's Emergency Fund, the judge shall select an attorney from the list maintained by the commission and the attorney shall prepare an estimated budget for the representation. The judge's request, commission's endorsement, selected attorney, and attorney's budget shall be sent to the governor for approval. In the event that the attorney exceeds his or her budget, the attorney must submit an amended budget for approval.

House Bill 409 also provides that when a district attorney or solicitor-general's office is conflicted out of prosecuting a case, the district attorney shall notify the executive director of the Prosecuting Attorneys' Council to appoint an attorney to act in the place of that office.

HB 620 Guardian and ward; payment of certain settlements involving claims of minors; clarify and revise procedures and requirements

By: Rep. Rob Leverett (33rd)

Through the Judiciary Committee

Final Bill Summary: House Bill 620 amends and updates provisions of the Code relating to the settlement of claims of minors. The maximum amount of the value of a minor's personal property, or the value of a minor's anticipated settlement, that may be received or accepted by the minor's guardian without becoming a conservator or court approval is raised from \$15,000 to \$25,000.

For proposed settlements of a minor's legal claim, the bill revises the definition of "gross settlement" and creates a new definition of "net settlement" to differentiate and clarify when a conservator must be appointed to submit a proposed settlement and which court must approve a proposed settlement.

When a minor has no assets, other than an interest in a legal claim, the requirement for a conservator to obtain a bond to settle the claim is delayed until the value of such interest is determined.

With respect to wrongful death, if there is no surviving spouse and a wrongful death action is brought by a minor, the natural guardian shall qualify as a conservator and obtain court approval of a settlement.

HB 916 Superior and State Court Appellate Practice Act; enact

By: Rep. Rob Leverett (33rd)

Through the Judiciary Committee

Final Bill Summary: House Bill 916, the 'Superior and State Court Appellate Practice Act', rewrites the procedure to appeal from a lower judiciary (any government body exercising judicial or quasi-judicial authority) to superior or state court. Finding that many appeals are dismissed on complex procedural grounds and not on the merits, the bill replaces the current certiorari review process and notice of appeal statutes with a single "petition for review" procedure. Courts are required to render decisions on the merits instead of dismissing on procedural grounds unless the dismissal is expressly required by statute. The bill establishes the appellate jurisdiction of superior and state courts over a final judgment of a lower judiciary, while preempting any local law or ordinance in conflict with the Act.

The bill establishes the general procedures for the petition for review, to include: a filing requirement within 30 days after the date of the final judgment; the format for filing the petition; the amendment/extension procedures; and policies related to service of process and venue. The bill creates limited grounds for dismissal

and enacts policies related to filing costs and recording of proceedings. The bill provides procedures for requiring a bond and outlines damage costs for frivolous appeals.

The bill includes conforming amendments throughout the Code, both by replacing terms and making technical changes to adopt the Code to the petition for review appellate procedure. The effective date for the bill is July 1, 2023.

SB 120 Solicitors-General of State Courts; honorary office of solicitor-general emeritus; provide**By: Sen. Lindsey Tippins (37th)*****Through the Judiciary Committee***

Final Bill Summary: Senate Bill 120, the 'Ethics in Government Act of 2021,' revises Chapter 5 of Title 21 of the Code. Definitions are provided to clarify terms already in the chapter. Restrictions on the Georgia Government Transparency and Campaign Finance Commission's authority to require additional reporting information are limited to campaign disclosure reports and personal financial statements. The ability for commission staff attorneys to initiate complaints and the commission's ability to initiate investigations based on such complaints are clarified.

No current or former members of the General Assembly shall be eligible to qualify for reelection until and unless all fines and fees owing to the commission have been paid, all disclosure reports due have been filed, and all outstanding taxes have been paid.

Deadlines for the commencement of actions by the commission for alleged violations are specified to coincide with the term of office and the occurrence of the violation, as opposed to the filing of a report containing such violation. Retention periods for accounts maintained by a candidate or treasurer of a campaign committee are clarified. Provisions regarding the allowable disposition of contributions are amended to include the transfer of contributions to political action committees.

The bill makes clear that a candidate may not utilize campaign funds for the purpose of making loans or investments directly to: the candidate; a member of the candidate's family; any business in which the candidate or a member of the candidate's family has an ownership interest; the candidate's trust or a trust of a member of the candidate's family; or any non-profit organization of which the candidate or a member of the candidate's family is on the payroll or has a controlling interest.

Updates of contribution limits by the commission will now be made after each gubernatorial election cycle, instead of each and every election cycle. The bill specifies when a candidate shall be deemed to have advanced to a subsequent election to clarify when the candidate may access contributions made for the subsequent election.

Public officers who have filed a financial disclosure statement within the previous year are exempted from having to submit an affidavit confirming that they took no official action in the previous calendar year that had a material effect on their private financial or business interests. Candidates seeking election as a public officer are now subject to the same requirement to file financial disclosure statements as the incumbent officers. Financial disclosure statements for candidates of statewide elected office shall be accompanied by a financial statement of the candidate's financial affairs for the five calendar years prior to the year that the election is held. The financial disclosure statements must also include the source or sources of the candidate's income.

Finally, the bill clarifies that lobbyists must file supplemental registration prior to any substantial or material change or addition in their registration.
